

# 7" Extra Coarse Ceramic Surface Conditioning Disc Performance Coated

Part No: 62023HD-2W

Presenting the 7" Extra Coarse Ceramic Blend Non Woven Surface Conditioning Disc, a part of the renowned PREDATOR™ product line, tailored for stock removal, blending, stripping, surface preparation, finishing. This product ensures efficient and precise results in heavy-duty cutting and grinding applications. Whether you are working with metals like aluminum, mild steel, or stainless steel, this product offers exceptional durability and reliability to meet your toughest demands. Our premium Performance Coating is a specialized additive we developed to help increase the life of your product and improve its performance. In many instances, our Performance Coated products can outlast non-coated products 3-to-1.

Abrasive discs are versatile tools that offer an efficient solution for sanding, grinding, and polishing. These discs are designed for use with a variety of power tools, such as angle grinders and sanding machines. Available in a range of materials, from aluminum oxide to zirconia, our abrasive discs can handle different tasks, from removing rust and paint to polishing surfaces for a smooth, professional finish. Choose from various grit sizes to match the intensity of your project and achieve the results you need.

## Specifications

Item Weight	0.184300
Weight UOM	LB
Surface Types	Aluminum, Exotic Alloys, Mild Steel, Stainless Steel
Freight Class for BOL	ABRASIVE PRODUCT
Structure	Surface Conditioning

Mineral	Ceramic Blend
NMFC Number for BOL	ABRASIVE CLOTH OR PAPER INCLUDING EMERY OR SANDPAPER
Product Line	Predator (Ceramic Hybrid)
Diameter	7"
