

7" x 1/4" x 5/8"-11 Type 27 24g Depressed Center Grinding Wheel

Part No: 807045801

ARC Abrasives' Depressed Center Grinding Wheels are built to tackle the most severe grinding applications, delivering maximum stock removal with ease. The unique design features a recessed center, allowing for a recessed locking nut that enables versatile grinding and cutting applications.

Features & Benefits:

- **Versatile Use:** Ideal for general-purpose grinding on all metals, making it a go-to tool for a variety of tasks.
- **Heavy-Duty Durability:** Engineered for tough, heavy-duty grinding, these wheels can withstand the most demanding applications.
- **Recessed Locking Nut:** The depressed center design allows for a recessed locking nut, enhancing versatility and providing better control.
- **Easy Changeover:** Available with a threaded 5/8"-11 hub option for quick and easy wheel changes, reducing downtime.
- **Reinforced Construction:** Built with reinforced materials to ensure stability and safety, even in the most challenging conditions.

For grinding applications that demand power, precision, and durability, Arc Abrasives' Depressed Center Grinding Wheels are the ultimate solution.

Specifications

Item Weight	1.020000
Weight UOM	LB
Mineral	Aluminum Oxide
Structure	Other

Performance Coat	No
Thickness	1/4"
NMFC Number for BOL	ABRASIVE GRINDING WHEELS, BENCH WHEELS, OR FIBRE DISCS
Freight Class for BOL	ABRASIVE PRODUCT
Product Line	Predator (Ceramic Hybrid)
Diameter	7"
Grit	24
Max RPM	8,700
