

4-1/2" x 7/8" 40g PREDATOR™ Fiberglass Flap Disc Hard Edge

Part No: 71-10824AF

ARC Abrasives' Flap Discs are the go-to solution for versatile applications, offering everything from aggressive stock removal to seamless surface blending. Featuring a layered construction of abrasive flaps, these discs continually expose new grains, ensuring a longer life and a finer finish compared to traditional resin fiber discs. The evenly layered flaps deliver a smoother and more forgiving operation than grinding wheels, making them ideal for precision work.

Features & Benefits:

- **Self-Sharpening Grains:** These grains continuously expose sharp edges, reducing heat buildup during grinding and extending the disc's life.
- **Consistent Removal Rate:** Delivers steady and reliable performance, ensuring uniform results in every use.
- **Versatile Application:** Ideal for low to moderate pressure tasks, excelling in both grinding and blending applications.
- **Angled Face:** Promotes greater abrasive surface contact, enhancing cutting efficiency and providing a smoother finish.
- **Heavy Duty Backing Plate:** Allows for more applied pressure, making the disc durable and reliable for tougher jobs.

For metalworkers seeking efficiency and versatility, ARC Abrasives' Flap Discs provide the ideal balance of performance, durability, and precision.

Specifications

Item Weight	0.275000
-------------	----------

Weight UOM	LB
Surface Types	Aluminum, Exotic Alloys, Mild Steel, Stainless Steel
Market Application	Blending, Deburring, Grinding, Rust Removal, Stock Removal, Weld Blending
Backing Weight	Y-Weight Cloth
Structure	Cloth
Mineral	Ceramic Blend
Performance Coat	No
NMFC Number for BOL	ABRASIVE CLOTH OR PAPER INCLUDING EMERY OR SANDPAPER
Freight Class for BOL	ABRASIVE PRODUCT
Product Line	Predator (Ceramic Hybrid)
Diameter	4-1/2"
Grit	40
Max RPM	13,300
Packaged In	Shrink Band
