

# SPANNER WRENCH

Part No: 50419

Presenting the Spanner Wrench, from the experts at ARC Abrasives, tailored for industrial applications. This product ensures efficient and precise results in heavy-duty cutting and grinding applications. Whether you are working with metals like aluminum, mild steel, or stainless steel, this product offers exceptional durability and reliability to meet your toughest demands.

Abrasive hardware and attachments are essential components that enhance the functionality and versatility of abrasive tools. They include backing pads, mandrels, arbors, and adapters, each designed to securely hold abrasive materials such as discs, wheels, and belts, ensuring optimal performance during sanding, grinding, and polishing tasks. Utilizing the appropriate abrasive hardware and attachments is crucial for achieving optimal results in abrasive operations. They ensure that abrasive materials are securely attached and function effectively, enhancing the efficiency and safety of sanding, grinding, and polishing tasks.

## Specifications

Item Weight	0.000000
Weight UOM	LB
Freight Class for BOL	ABRASIVE PRODUCT
Structure	Other
NMFC Number for BOL	ABRASIVE GRINDING WHEELS, BENCH WHEELS, OR FIBRE DISCS
Product Line	None
