

ARC® APEX PREMIUM CERAMIC BELT

ARC ABRASIVES is changing the game by adding the latest in ceramic grain technology to their abrasive line. **ARC® APEX Premium Ceramic** Belts attack the metal working industry with enhanced cut ratios, longer life, and cooler operation.

ARC® APEX Premium Ceramic belts are optimized for a high-stock removal rate, which helps to reduce costs when grinding high-alloyed steel. Tear resistant belt joints allow the user to work on cylindrical workpieces under high pressure with ease.
