

ARC® APEX PREMIUM CERAMIC FLAP DISCS

ARC ABRASIVES is changing the game by adding the latest in ceramic grain technology to their abrasive line. **ARC® APEX Premium Ceramic** Flap Discs attack the metal working industry with enhanced cut ratios, longer life, and cooler operation.

ARC® APEX Premium Ceramic flap discs enables top-tier grinding and blending on material such as stainless steel, titanium and exotic alloys.

The discs are manufactured from strengthened fibers to ensure a high-quality and uniform finish.
