

ARC® APEX PREMIUM CERAMIC RESIN FIBER DISCS

ARC ABRASIVES is changing the game by adding the latest in ceramic grain technology to their abrasive line. ARC® APEX Premium Ceramic Resin Fiber Discs attack the metal working industry with enhanced cut ratios, longer life, and cooler operation.

ARC® APEX Premium Ceramic's Resin Fiber Discs deliver exceptional performance with a higher cut rate. The resin fiber discs are recommended for flat surfaces and outside corners that deal with stainless steel, titanium, and exotic alloys.
