

ARC® APEX PREMIUM CERAMIC QUICK-CHANGE DISCS

ARC ABRASIVES is changing the game by adding the latest in ceramic grain technology to their abrasive line. **ARC® APEX Premium Ceramic** Quick-Change Discs attack the metal working industry with enhanced cut ratios, longer life, and cooler operation.

ARC® APEX Premium Ceramic quick-change discs outperform the competition on stainless steel, titanium, and exotic alloys.

The self-sharpening grains extend product life, resulting in minimized disc changeover that impacts your bottom line.
