

## CURRENT PRODUCTS USED:

- 37" x 75" XCRS Wide Belt

## CHALLENGES:

- Competitor product leaves deep scratches
- Competitor belt is too aggressive
- Disappointing quality

# CASE STUDY

## INDUSTRIAL SUPPLIER

ARC Abrasives teamed up with a quality industrial supplier to test the effectiveness of Z-WEB™ wide belts to their current non-woven belt. All products were tested on food-grade stainless steel rolls that are created for food and beverage vendors.

## APPLICATION

Operators were able to use the Z-WEB CRS and MED belts to minimize the scratch depth on the stainless steel rolls. The performance quality of the ARC belts exceeded finish specifications.

## CONCLUSION

**PERFORMANCE INCREASE**

**MINIMIZED SCRATCH DEPTH**

**IMPROVED QUALITY OF FINISH**

## ARC RECOMMENDATION:

37" x 75" Z-WEB CRS & MED  
Wide Belts

## RESULTS

**LONGER PRODUCT LIFE**

**\$6K**  
COST SAVINGS

**INCREASE IN OUTPUT**

**30%**  
OPTIMIZED EFFICIENCY
